**We're extending an invitation  
to run to what's possible.**

It could be a feeling we're chasing, a speed we want to hit, or a dream we want to make happen. That's why we're building the gear and community to help us all lace up and unlock the energy to get after it.

**LET'S  
RU**

Please note: Footwear designs and colorways are subject to change.

Due to development timelines, weights are based on samples.  
Final weights will be communicated ahead of the product launch date.

This season, we make exciting updates to our road-running shoes. No matter where you run, the Ghost Max 2 and Hyperion Max 2 offer a protective feel underfoot thanks to high stack heights and innovative rocker technology. The Ghost Max 2 features nitrogen-infused DNA LOFT v3 midsole technology to cushion every landing, and our smooth midsole rocker geometry – the GlideRoll Rocker – for an effortless, protected feeling. The Hyperion Max 2 features responsive DNA FLASH v2 cushioning and our RapidRoll Rocker and SpeedVault Plate for quick, assisted transitions.

Additionally, we're refreshing the Adrenaline GTS 24 with DNA LOFT v3 midsole technology for an even smoother, softer feeling.

The Hyperion and Hyperion GTS 2 offer dynamic performance, with or without go-to support, for individuals who want rebound on the run or at the gym. Featuring DNA FLASH v2 midsole technology that is lighter and 10% more responsive than before.

On the trails, our adaptable Cascadia 18 and Cascadia 18 GTX get an update with specialized overlays in high-wear areas for durability, while the Divide 5 and Divide 5 GTX now feature more lightweight DNA LOFT v2 cushioning.

Ready for Fall? We certainly are. This season, let's see what running can be – where we can take it, and where it can take each of us.

# NOT THERE

## RUN SIGNATURE

# NO TWO RUNNERS ALIKE

Run Signature helps you pick the right shoes. We start by determining the deviation between the way your body moves while on the run versus off – this result determines your need for support.

Then you choose your preferred experience: soft and dynamic cushioning to find your groove or responsive, spring-like cushioning to push your pace. We use what we learn to match you with your perfect running shoes.

# A SHOE FOR EVERY RUN. A SHOE FOR ALL WHO RUN.

Super-soft cushioning for supreme comfort.

### Supreme softness

Now with more super-soft, nitrogen-infused DNA LOFT v3 cushioning that is optimized to be lightweight, responsive, and durable for plush comfort.

### Improved fit

New, engineered warp knit upper is breathable and allows for a flexible, accommodating fit while staying soft against your foot.

### Smooth, stable transition

The broad platform stabilizes your foot and promotes smooth heel-to-toe transitions.

### What's New

- New RoadTack rubber includes recycled silica and is lightweight and durable.
- Additional 2 mm of DNA LOFT v3 midsole for a plush ride.
- Made with recycled materials equivalent to 5 plastic water bottles.

Smooth, reliable cushioning for distraction-free runs.

### Dynamic cushioning

Nitrogen-infused DNA LOFT v3 midsole foam delivers soft, smooth cushioning that adapts to your unique stride for lightweight comfort mile after mile.

### Smooth transitions

The soft midsole and Segmented Crash Pad promotes an easy flow from landing to toe-off.

### Enhanced upper

Engineered air mesh upper blends stretch and structure with just-right breathability.

### What's New

- New, nitrogen-infused DNA LOFT v3 midsole for lightweight cushioning.
- New RoadTack rubber includes recycled silica and is lightweight and durable.
- Made with recycled materials equivalent to 7 plastic water bottles.

### Additional Benefits

- To achieve CarbonNeutral® product certification for this style, we increase use of recycled materials to lower carbon emissions, then support carbon offset projects to neutralize the emissions we can't yet eliminate.

Smooth, reliable cushioning for distraction-free runs.

### Dynamic cushioning

Our soft, nitrogen-infused DNA LOFT v3 cushioning delivers lightweight comfort.

### Smooth transitions

The soft midsole and Segmented Crash Pad promotes an easy flow from landing to toe-off.

### Enhanced upper

Engineered air mesh upper blends stretch and structure with just-right breathability.

### What's New

- New, nitrogen-infused DNA LOFT v3 midsole for lightweight cushioning.
- New RoadTack rubber includes recycled silica and is lightweight and durable.
- Made with recycled materials equivalent to 7 plastic water bottles.

### Additional Benefits

- To achieve CarbonNeutral® product certification for this style, we increase use of recycled materials to lower carbon emissions, then support carbon offset projects to neutralize the emissions we can't yet eliminate.

## NEW GHOST MAX 2

\$150 |

Soft, smooth, and protective for maximum comfort.

### Protective cushioning

A high stack of nitrogen-infused DNA LOFT v3 midsole foam delivers soft, smooth comfort for a protective feel and easy landings.

### Assisted transitions

GlideRoll Rocker actively promotes smooth heel-toe transitions for an effortless feeling as you move.

### Stable ride

A broad base offers inherent stability for a secure feel that doesn't interfere with a neutral stride.

### What's New

- To achieve CarbonNeutral® product certification for this style, we increase use of recycled materials to lower carbon emissions, then support carbon offset projects to neutralize the emissions we can't yet eliminate.
- Nitrogen-infused DNA LOFT v3 technology offers just-right softness.
- Made with recycled materials equivalent to 6 plastic water bottles.

### Additional Benefits

- Unique Linear Last construction adds more volume to the shoe for a comfortable fit inclusive of foot shapes and orthotics.
- GlideRoll Rocker can help reduce muscular strain at the ankle joint.
- Lower, 6 mm offset which can reduce strain on the plantar fascia.
- For some people, the Ghost Max 2 can help keep them moving in their habitual motion path.

## THIS SHOE IS FOR

The Ghost Max 2 is for runners and walkers who want cushioned protection and a smooth, reliable ride.

## WHAT'S NEW

- Nitrogen-infused DNA LOFT v3 technology offers just-right softness.

CarbonNeutral.com

To achieve CarbonNeutral® product certification for this style, we increase use of recycled materials to lower carbon emissions, then support carbon offset projects to neutralize the emissions we can't yet eliminate.

## WEAR TESTERS SAY

"I can really feel the rocker technology working for me. As a heel striker, I find the heel-to-toe transition to be on par with, or better than, other brands I have used. This version is excellent."

- Same stack but added more loft v3 took 1mm off the outsole, road tack rubber,
- Different look in the flex groves but same flexibility
- Road tack rubber more abrasion, rebound, no diminished traction
- Lighter weight, More energy return, durability, softer
- DNA Medial Guide Rail new branding
- 9 color ways and 5 widths on the mens side and 10 color ways with 5 widths on the women's side

NEW

# ADRENALINE GTS 24

The tried and true Adrenaline GTS 24 continues to provide support to every stride, now with nitrogen-infused DNA LOFT v3 cushioning for even more lightweight, plush comfort. Our holistic GuideRails system supports your body in its natural motion path so you can do more, comfortably.

## SUPPORTIVE CUSHION

### Enhanced upper

Engineered Air Mesh upper provides just right breathability and structure for an accommodating fit.

### GuideRails® holistic support system

Our innovative technology supports your body in its natural motion path while keeping excess movement in check.

### Soft cushioning

Nitrogen-infused DNA LOFT v3 midsole foam delivers soft, smooth cushioning that adapts to your unique stride for lightweight comfort mile after mile.

Dependable comfort, now with updated cushioning.

### Dynamic cushioning

Updated midsole features soft DNA LOFT cushioning for lasting comfort that adapts to your stride.

### Smooth transitions

The Segmented Crash Pad – sculpted grooves in the heel and outside of the shoe – helps to absorb impact for easy flow from landing to toe-off.

### Breathable upper

New, breathable engineered air mesh feels soft and comfortable around the foot.

### What's New

- Updated midsole with soft DNA LOFT provides lasting comfort.
- New engineered air mesh offers softness and breathability.
- Made with recycled materials equivalent to 6 plastic water bottles.

# Beast & Ariel 24 Updates

- New Upper: Jacquard Air Mesh upper
- TPU Molded heel to add additional support
- Midsole 26:14 Total Stack 37:25

NEW

# ARIEL GTS 24

Max support and comfort make the Ariel GTS 24 a runner and walker favorite. Nitrogen-infused DNA LOFT v3 provides soft, durable cushioning, while GuideRails® technology helps the wearer stay in their natural motion path, limiting excess joint movement.

## SUPPORTIVE CUSHION

### Secure fit

Designed to offer a generous, roomy fit that still provides the lockdown you need to move comfortably.

### GuideRails® holistic support system

Our innovative technology supports your body in its natural motion path while keeping excess movement in check.

### Resilient cushioning

Soft, nitrogen-infused DNA LOFT v3 cushioning adapts to your unique stride and delivers durable comfort.

## THIS SHOE IS FOR

The Ariel GTS 24 is for anyone who needs a supportive shoe with lasting comfort that's designed to accommodate pedorthic issues.

## WHAT'S NEW

- Engineered upper provides increased comfort and softness while still delivering on performance.

## WEAR TESTERS SAY

"Best Ariel I've ever run in, and I've been running in them for several years. The shoe gives support and control as usual, but this version has better comfort and cushioning than past models. The overall fit is very secure without being too tight, the room in the toe box is just right, and the transitions are smooth and springy."

# ADDICTION GTS 15

\$140 |

Soft, supportive,  
and super protective.

### Dynamic cushioning

Our DNA midsole technology delivers soft, adaptive cushioning that reduces impact on your joints as you move, for a protective feel all day long.

### GuideRails™ holistic support system

Our innovative technology supports your body in its natural motion path while keeping excess motion in check.

### Roomy, comfortable fit

Unique forefoot construction accommodates orthotics and high-volume feet, while an engineered air-mesh upper and 3D FitPrint offer the perfect blend of stretch and structure for supreme comfort.

### Additional Benefits

- One-piece outsole keeps the shoe from flexing too much, a benefit for some runners with pedorthic needs.

LAUNCH GTS 10

## THIS SHOE IS FOR

The Hyperion Max 2 is great for runners looking to train consistently – or to race – in a shoe that has more protective cushioning, with a responsive pop for running at top speeds.

## WHAT'S NEW

- Added 4mm to the heel and 6mm to the forefoot.
- SpeedVault Plate enhances cushioning, with a responsive pop for running at top speeds.
- DNA FLASH v2 delivers nearly 10% more energy return and is lighter than the previous version.

## WEAR TESTERS SAY

"This is by far my favorite shoe I've ever worn. The cushioning is magical, propelling me forward with the rocker shape and no sore feet. I'll be increasing my mileage each week until tapering for Boston, I'm currently at 50 miles per week and I love running each mile because of these shoes."

# HYPERION ELITE 4

\$250 |

Designed with the pros for next-level speed road races.

Launches 2/1

Unisex

### Built to win

New, nitrogen-infused DNA FLASH v2 cushioning is lighter and more responsive, delivering powerful energy return to propel you toward the finish line.

### Fine-tuned propulsion

SpeedVault Race+ Plate is lightweight and customized to each shoe size to provide optimized stiffness for every runner.

### Race-ready fit

Updated upper locks down your foot for a secure feel while streamlined design allows for distraction-free comfort and barely-there feel.

### Additional Benefits

- DNA FLASH v2 delivers nearly 10% more energy return and is lighter than the previous version.
- DNA FLASH v2 cushioning helps to absorb impact and keep your legs feeling fresh from start to finish.
- SpeedVault Race+ Plate is made using Additive Molding, a new technology that uses bio-based materials for near-zero waste.
- RapidRoll Rocker – the curved sculpting of the midsole – works with the carbon fiber plate to propel you forward.
- Developed with and tested by Brooks-sponsored athletes.

# TRAIL

Whether you're barreling down smooth single-track or navigating technical terrain, we have the adaptable, protective footwear you need to connect with the trails.

# YOUR TRAIL COMPANION

We designed the **Cascadia 18 and Cascadia 18 GTX** so runners can take on technical terrain with confidence. The newest update includes overlays in high-wear areas for protection on tough terrain. Our Trail Adapt System features DNA LOFT v2 cushioning with an integrated rock plate and zonal pods, to create adaptable stability on uneven surfaces. Our TrailTack Green rubber outsole is made of 25% recycled material and provides enhanced traction and grip necessary to traverse slippery

ground, rocky crags, or anything else the trail may throw your way. The Cascadia 18 GTX offers breathable, waterproof GORE-TEX® technology ideal for frequent water crossings.

# TOP TRAIL UNION

The Divide 5 and Divide 5 GTX offer a familiar road shoe fit with trail-ready design so you can move easily from asphalt to gravel. Featuring updated DNA LOFT v2 midsole technology that is 10% lighter than before, the Divide 5 offers a soft and smooth ride from the roads to the trails. Our TrailTack Green rubber outsole provides traction on both wet and dry surfaces and is made with 25% recycled material. The Divide 5 GTX has a lightweight, GORE-TEX® waterproof membrane for protection that remains breathable and flexible.

Adaptable stability with trail-ready protection.

### Adaptable stability

Our Trail Adapt System utilizes an integrated midsole, rock plate, and zonal outsole pods to offer enhanced control and a stable ride over any terrain.

### Comfort and security

DNA LOFT v2 provides soft cushioning over any terrain while TrailTack Green outsole rubber provides enhanced traction on wet and dry surfaces and features 25% recycled material.

### Protective upper

Breathable mesh is durable and dries fast, while overlays in high-wear areas add a layer of protection for the trail.

### What's New

- To achieve CarbonNeutral® product certification for this style, we increase use of recycled materials to lower carbon emissions, then support carbon offset projects to neutralize the emissions we can't yet eliminate.
- Updated mesh features overlays in high-wear areas.
- Cascadia 18 and Cascadia 18 GTX are made with recycled materials equivalent to 10 and 9 plastic water bottles, respectively.

### Additional Benefits

- PrintDyed upper saves 66% of the energy and 75% of the water required for the traditional dye process (not applicable to GTX version).
- Articulated Ballistic Rock Shield in midsole protects the foot without limiting flexibility.
- TPU Mudguard and toecap block debris.
- 4.5 mm lug height.

## CALDERA 7

\$150 |

Ultra-cushioned for ultra-distances.

### Supreme softness

Super-soft, nitrogen-infused DNA LOFT v3 cushioning is optimized to be lightweight, responsive, and durable for plush comfort.

### Stable ride

Strategically raised midsole foam walls offer added security and flexibility where you need it, while the widened base and added flex grooves in the outsole work to stabilize your landings and carry you smoothly over uneven terrain.

### Durable and dynamic

Improved upper features an external cage for a more secure, adaptable fit at the midfoot, while breathable TPEE sandwich air mesh offers protective durability and moisture management over versatile terrain.

### What's New

- To achieve CarbonNeutral® product certification for this style, we increase use of recycled materials to lower carbon emissions, then support carbon offset projects to neutralize the emissions we can't yet eliminate.
- Light, breathable, durable TPEE air mesh.
- TrailTack Green outsole provides traction on wet and dry surfaces and is made of 25% recycled material.
- New outsole design provides traction and grip on trails.
- Midsole side walls redesigned for flexibility and stability.

### Additional Benefits

- Forefoot outsole is modeled after mountain goat hooves.
- Made with recycled materials equivalent to 6 plastic water bottles.
- 4 mm lug height.

Light and responsive to help you run faster and farther on the trails.

### Light & responsive cushioning

Nitrogen-infused DNA FLASH midsole technology is lightweight and delivers the perfect blend of responsiveness and adaptive cushioning for a fast ride.

### Uphill efficiency

SkyVault Trail Plate provides responsive drive you need to summit peaks and push the pace.

### TrailTack grip

TrailTack Green rubber outsole is made with 25% recycled content and offers superior traction on both wet and dry surfaces.

### What's New

- To achieve CarbonNeutral® product certification for this style, we increase use of recycled materials to lower carbon emissions, then support carbon offset projects to neutralize the emissions we can't yet eliminate.
- Streamlined construction allows upper to contour to the foot over uphill climbs and lateral motion.

CarbonNeutral.com

### Additional Benefits

- Premium single-layer TPEE mesh is lightweight and breathable while remaining durable enough to take on rugged trails.
- Made with recycled materials equivalent to 7 plastic water bottles.
- 3.5 mm lug height.

# CATAMOUNT AGIL

\$180 |

Race technical trails at top speeds

TRAIL

Unisex

### All-out speed for racing technical terrain

The new SpeedVault Trail Plate is designed to propel you to top speeds on race day and works with nitrogen-infused DNA FLASH v2 midsole technology to create a lightweight, responsive ride.

### Agile & responsive design

Midsole and outsole are precision engineered for speed – lower stack height and responsive underfoot-feel allow you to remain agile at top speeds and tackle dynamic terrain while the articulated SpeedVault Trail Plate helps you maintain footing.

### Locked-in fit

Lightweight mesh upper contours to foot for second-skin feel and can be cinched down for increased precision.

### Additional Benefits

- To achieve CarbonNeutral® product certification for this style, we increase use of recycled materials to lower carbon emissions, then support carbon offset projects to neutralize the emissions we can't yet eliminate.
- Nitrogen-infused DNA FLASH v2 midsole technology is lighter and provides nearly 10% more energy return than previous version.
- SpeedVault Trail Plate is made of the same Pebax material used in our track spikes to deliver propulsive speed and stability over rugged terrain.
- TrailTack Green outsole provides superior traction on wet and dry surfaces and is made of 25% recycled material.
- Perforated outsole shaves weight while delivering high-performance traction, grip, and protection on the trails.
- 4.5 mm lugs.

# HIGH POINT CREW SOCK

280491 | \$20 |

**Sizes**

S-XL

**Intro date for new colors**

07/01/2024

**Fabric**

- 60% Nylon, 19% Wool, 19% Polypropylene, and 2% Spandex

**More details**

- To make the High Point Crew Sock carbon neutral, we lower emissions by increasing use of recycled materials. To neutralize any remaining emissions, we support independently verified carbon offsetting projects.
- Unique yarn composition for superior cushion and rebound
- Crew length provides protection and comfort for the trail without excess fabric or coverage
- Sock name and size stitched in for easy reference

Long-lasting comfort over the toughest trails.

**High durability**

Anti-abrasion yarn in high-friction areas makes the sock durable for long-lasting wear.

**Protective construction**

Reinforcement in the toe box protects sensitive areas for long-lasting comfort.

**Sweat-wicking**

Merino wool blend wicks sweat and controls odor while mesh venting provides airflow.

## midsole

### DYNAMIC CUSHIONING

#### **DNA**

A responsive midsole technology that cushions each step and adapts to a runner's unique stride, weight, and speed.

#### **DNA FLASH**

A nitrogen-infused midsole cushioning compound that provides ultralight softness with plenty of energy return to power your run.

#### **DNA FLASH v2**

We reengineered the chemistry of our fastest midsole technology to make it less dense and more — well, more everything. Softer and lighter with nearly 10% more energy return than the original, nitrogen-infused DNA FLASH v2 foam is designed for high-speed running.

#### **DNA LOFT**

A finely calibrated mix of Brooks DNA foam, air, and rubber, DNA LOFT is our soft cushioning engineered for plush comfort without lost responsiveness or durability.

#### **DNA LOFT v2**

Lighter than the original but just as soft, DNA LOFT v2 has a unique balance of rubber, air, and a less dense, lighter foam, for a plush feel that won't bottom out or weigh you down.

#### **DNA LOFT v3**

Nitrogen-infused DNA LOFT v3 is our most amplified soft cushion compound to date. We've fine-tuned the nitrogen infusion process in DNA LOFT v3 for optimized softness, enhanced responsiveness, and lighter weight, all without sacrificing durability.

### FLEXIBILITY & ALIGNMENT

#### **Blown Rubber**

A low-weight rubber compound. We dialed down the density to crank up the responsiveness.

#### **Flex Grooves**

Strategic etching underfoot that enhances midsole flexibility, for an effortless forefoot ride without compromising the integrity of the cushioning.

#### **HPR**

High-performance rubber, or HPR, is an outsole compound that's abrasion resistant and durable for longer wear.

#### **Propulsion Plate**

Engineered to push runners forward with every stride, the plate works with ultralight cushioning for optimal race-day efficiency.

#### **SkyVault Trail Plate**

A Pebax plate engineered to aid in uphill running. When a runner steps on the plate and pushes off in stride, the plate bends and snaps back into place, delivering propulsion and assistance as the runner climbs. And the unique shape provides flexibility on technical terrain, as well as stability and comfort on downhills.

#### **SpeedVault Plate**

Built for daily use, this balanced speed plate features optimized stiffness for training. It's designed to propel the runner forward and provide energy return.

#### **SpeedVault Race Plate**

Developed for racing, this plate maximizes energy return and spring for forward propulsion. Featuring premium materials and optimized bending stiffness, plus strategic design that tailors performance to the race distance and surface.

#### **SpeedVault Race+ Plate**

Made for speed, this plate delivers a consistent experience for runners with different shoe sizes and builds — the right bending stiffness, with no added weight. And no added waste, thanks to near zero-waste manufacturing methods.

#### **SpeedVault Trail Plate**

Designed for efficient, fast running on technical trails, this Pebax plate's forefront sits close to the ground for optimal forward motion. Its length extends beyond the forefoot to improve performance, and it connects to the big toe for propulsion. Plus, the plate lets the foot articulate, so the shoe goes wherever the runner wants.

#### **Segmented Crash Pad**

Shaped like a caterpillar, a system of fully integrated shock absorbers that accommodates any foot landing to maximize efficiency, provide cushion, and create smooth heel-to-toe transitions.

#### **RapidRoll Rocker**

The curved sculpting of the heel and toe of the midsole is constructed to actively propel you forward with effortless speed.

#### **GlideRoll Rocker**

The GlideRoll Rocker facilitates a smooth transition forward in each step. It delivers more comfort — keeping some people in their habitual motion path — to help the body do less.

#### **Trail Adapt System**

Strategic configuration of zonal pods on the outsole, designed for traction and stability on uneven terrain.

## midsole *(continued)*

---

### SUPPORT

#### **Extended Progressive Diagonal Rollbar**

An extended version of our Progressive Diagonal Rollbar, which is a tri-density post at the medial arch that is biomechanically engineered to allow for progressive support and create smoother transitions from the midstance phase to the propulsion phase.

#### **GuideRails® holistic support system**

An innovative, on-demand support technology that guides the body — hips, knees, and joints — into its natural motion path of least resistance.

## outsole

---

#### **Ballistic Rock Shield**

A toughened, thermoplastic EVA sheath between the outsole and midsole that protects the forefoot by spreading out point loads from sharp objects.

#### **RoadTack Rubber**

Our do-it-all rubber compound designed for durability, light weight, and rebound. Made with recycled materials.

#### **Slip-Resistant Outsole (SATRA TM144:2011)**

Slip resistance on both wet and dry surfaces.

#### **TrailTack Rubber**

A sticky rubber compound that provides outstanding uphill and downhill traction, even on wet surfaces.

#### **TrailTack Green**

The next generation of TrailTack Rubber, TrailTack Green includes recycled content, and requires less material to build than the original. So it's easier on the environment while still delivering excellent wet-dry traction on the run.

## upper

---

#### **3D Fit Print**

An advanced screen-printing process to apply strategic stretch and structure for a seamless, impeccable fit.

#### **Engineered Mesh**

Custom-designed and strategically woven or knit mesh that provides optimal structure and breathability.

#### **Knit**

Our premium knit construction specifically designed to move and expand seamlessly with your foot for a sock-like fit and optimal performance.

#### **GORE-TEX® Invisible Fit**

An updated lightweight membrane is bonded directly to the upper for a lighter, more flexible fit, offering breathable, waterproof protection on the run.

#### **OrthoLite® Sockliner**

Contoured insert designed to fill any negative space under the foot.

#### **Stretch Woven**

A pliable upper construction that wraps the foot in a sock-like fit.

#### **Ultimate Sockliner**

A PU insert with an OrthoLite® memory foam middle layer and convoluted egg-crate surface that provides substantial cushioning, breathability, and conformability.

# Have you tried using FastTrack on your mobile or tablet devices?

Using FastTrack on the “go” is easy. In addition to our mobile app – available in your device’s app store – the full web view also scales to screen on your desktop, laptop, tablet, and mobile devices.

## With FastTrack you can:

- View available inventory
- Place at once and future orders
- View order status and track shipments
- See who placed orders and access open baskets
- Email suggested baskets
- View and order from Brooks spotlight lists
- Scan barcodes to access product
- Sales reps can review and approve future orders

\*For optimal performance, use Chrome as your web browser

FastTrack  
BROOKS

# LOCALLY

Did you know runners are 4x more likely to do their research on brooksrunning.com and buy in a physical store than they are to finish their purchase online?

Locally.com allows Brooks to tell online shoppers when you have our products available in store. We have found that retailers who share their inventory with Locally.com benefit from the web traffic on brooksrunning.com.

Signing up for Locally can:

## **Introduce runners to your store**

Locally provides additional exposure to runners new to town or who haven't been into your store yet. Enjoy a customizable notification schedule that lets you receive text and/or email alerts during business hours. You also have the option to direct message with the shopper at any time during the ordering process. Retailers who share inventory with Brooks through our dealer locator on Locally get five times more views than those that don't.

## **Drive traffic and sales**

On Locally, customers can choose between these options: Reserve Online/Pickup In Store, Buy Online/Pickup In Store/Same Day Delivery. Sales from these transactions on Locally have increased 4–6X throughout 2020 as customer shopping behavior has evolved. This expanded toolkit gives runners more opportunities than ever to shop your store. You can also accept orders for in-store pickup directly from brooksrunning.com, Facebook, your own site, and Locally.com.

## **Help us highlight your store**

When our website inventory runs low, we direct runners to Locally to search retail inventory in their hometowns – at stores like yours! And Brooks can layer Locally's store locator tool into marketing campaigns to drive attendance to store events.

## **New**

Locally now offers Same Day Delivery. To provide support for new shopping behaviors, Locally now enables all participating retailers Same Day Delivery with no additional cost. Same Day Delivery is a great addition to in-store or curbside pickup. Available in Postmates market (US only for now), standard 3.5% transaction fee plus carrier delivery charges still apply.

Have any questions or just want to get started? Contact your Brooks rep, or head straight to [www.locally.com/go/launch](http://www.locally.com/go/launch).
